Finding of Suitability to Transfer
First CERFA Parcel Transfer
Notification of Hazardous Substances Storage, Release and Disposal
Fort McClellan, Calhoun County, Alabama

1 of 1

Building No.	Name of Hazardous Substance	Date of Storage, Release, or Disposal	Remedial Actions
141 and 143	Lead	The period of operation is unknown	In 1999, four Indoor Pistol Ranges comprising 45 cubic yards of metal and wooden debris and 11.8 cubic yards of sand, were removed, characterized for disposal, and properly disposed of as hazardous, lead-contaminated waste. Based on confirmatory sampling results, it was concluded that no further action is required at the Indoor Pistol Ranges in Buildings 141 and 143.
<p>The information contained in this notice is required under the authority of regulations promulgated under section 120(h) of the Comprehensive Environmental Response Liability, and Compensation Act (CERCLA or 'Superfund') 42 U.S.C. section 9620(h). This table provides information on the storage of hazardous substances for one year or more in quantities greater than the hazardous substance's CERCLA reportable quantity. In addition, it provides information on the known release of hazardous substances in quantities greater or equal to the substance's CERCLA reportable quantity. See 40 CFR Part 373.</p>
